

Fike Lighting

Why LEDs?

Those giant lights above the basketball courts use *85% more electricity than LEDs.*

Replacing these metal halide lamps will save Clemson thousands of dollars monthly!

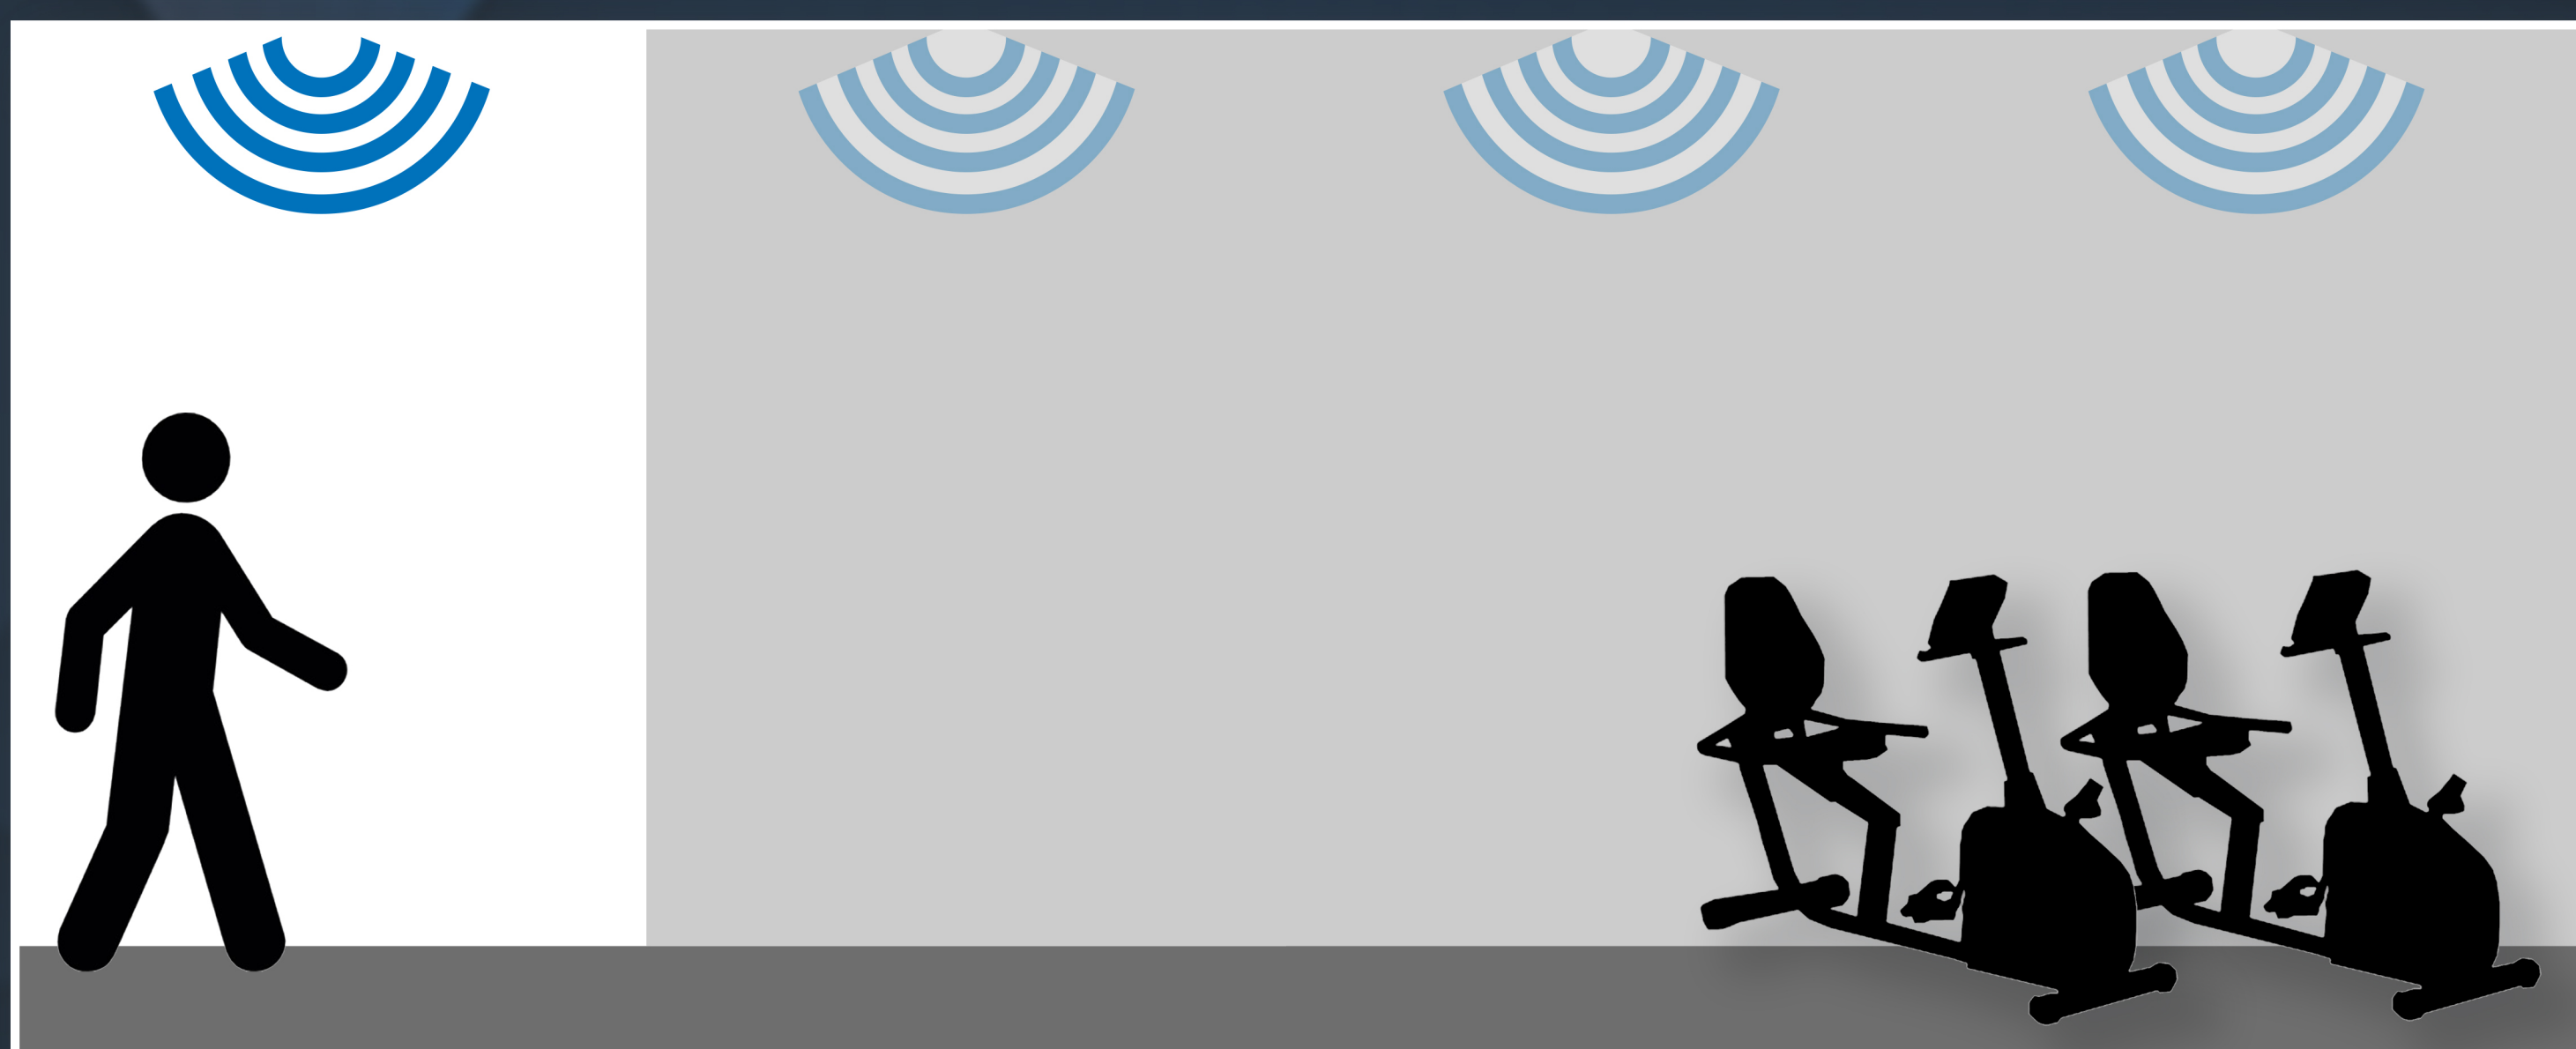

Lasts 4x longer
Turns on and off instantly

Lower operating noise

Up to 85% energy savings

Some corridors will have occupancy sensors. So, as you walk down the hallway, the lights will turn on!

This will save energy and make you feel important when the lights turn on as you walk by.

LEDs will be going in all around Fike, so make sure you keep a look out and enjoy Fike in a new light!
