Clemson Recycling

What Happens When You Recycle?

Follow Along the Recycling Process at Clemson

1

You Recycle It

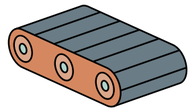
You place clean paper, empty plastic bottles, empty aluminum cans, and cardboard in recycling bins around campus

2

Collection

Collected recyclables are transferred to Kite Hill Recycling Center

3



Sorting

Items are sorted by material and separated into paper, plastic, aluminum, & cardboard

4

Processing

Materials are cleaned, shredded, and prepared for reuse

5

New Products

Recycled materials become new products!
