Coaching for Success

Workshop

5/22 9:00—12:00—Location TBD

This video event features best-selling author and America’s preeminent executive coach Marshall Goldsmith. Goldsmith will discuss how behavioral coaching across your organization can change behavior and make successful people even more successful.

ATLAS

(Continued from page 2)

version of the Atlas. If at some point you decide it would be helpful to print a portion of the Atlas, you can print it to the plotter right from the touchscreen.

Finally, while the printed “wall” version of the Atlas in Civil Survey is generally up-to-date, the version on the touchscreen in the Vault is based on the most current data provided by surveyor Scott Richie. After Scott updates the Atlas on his PC, the changes are reflected the next time the Atlas is opened on the touchscreen.

As this is an experiment with new technology, Facilities IT is interested in any feedback you can provide on the touchscreen’s usefulness as an alternative to the traditional methods of viewing the Atlas.

AIM UPGRADE

The AiM upgrade to version 6.3.1 has been completed. At this time, the only known issue concerns the icon appearance on your screen. AiM has changed to a different style of icon for this release, and it is possible your web browser will try to use the same icons from the previous version. When this happens, you will see boxes or just blank space where an icon is expected. If you experience this, it is necessary to clear your browser's cache. If you need help doing this, contact Facilities IT for assistance.

The new login screen looks drastically different. In keeping with our position that users should be alert to online safety and proceed with caution when encountering anything that may look suspicious, an example of this new screen is shown below.

As always, if you have any other questions about the upgrade, please contact Facilities IT.

A Big Thank you from Keith
Chapman and Landscape Services

Landscape Services would like to extend a huge THANK YOU to everyone for their generous support during the raffle and hot dog benefit for Keith Chapman and his family! An amazing \$3,013.06 was raised and donations continue to come in for the Chapman Family!

In particular, we would like to thank John Gambrell, Phillip Addington, Ryan Campbell, and Cecelia Jackson for securing raffle items. We would also like to thank Vicki Durham, Keith Martin and Cecelia for their assistance and guidance in preparing for the event.

Special thanks to Landscape members: Mark Albertson, Jeff Baker, Bill Carson, Rick Boulanger, Allen McLane, Zack Roach, Steve Pate, Thad Parton, Colleen Caracciolo, and all individuals who worked behind the scenes to make this benefit such a success.

Raffle item winners were:

Sam Waites – autographed football and pullover jacket (donated by Athletics)
Ryan Campbell – autographed basketball (donated by Assistant Basketball Coach Earl Grant)
Lonnie Swafford – Orange Bowl T-shirt and ball cap (donated by Athletics)
Jonathon Turner – Orange Bowl T-shirt and ball cap (donated by Athletics)
Claude McKern – official DVD of the Orange Bowl Game (donated by Tiger Sports Shop)

Ryan Campbell – 1993 Alumni print (donated by CU Alumni Center)
Mark McJunkin – 1994 Alumni print (donated by CU Alumni Center)
David Martin – 1995 Alumni print (donated by CU Alumni Center)
Steven Pate – 1996 Alumni print (donated by CU Alumni Center)
Chris Addis – Fighting Bucks print (donated by Artist and retired Architecture Professor Ireland Regnier)
Anonymous at Northern Tools – autographed novel (donated by Author and retired English Professor C.O. Caskey)
Sandra McCurry – 3 month guest membership to Golds Gym (donated by Clemson Golds Gym)
Rick Pate – hand crafted wooden bowl (created by J.R. Diehl)
Cindy Swafford – white Clemson shirt (donated by IPTAY)
Tom from Pickens County – orange Clemson shirt (donated by IPTAY)
Steven Pate – white Clemson shirt and visor (donated by IPTAY)
Ryan Campbell – Clemson baseball cap and 6 Clemson clips (donated by IPTAY)

Another fundraiser will be held mid-summer to benefit the family. Raffle items will include a signed Dabo Swinney Orange Bowl poster (27” x 22”), a signed Orange Bowl orange, and an original 1981 National Championship promotional Coke.

CAMPUS
KUDOS

Email to Adrienne Gerus

Kudos to your staff for doing such a good job getting the roads cleared on campus during the snow storm. I came in during the thick of it to check on some things at the golf course, and the roads on campus were the best around. I was able to move around campus with relative ease. It was obvious that your staff was well prepared and hard at work.

Please pass along my thanks to your staff.

Don Garrett
*Golf Course Superintendent
The Walker Course at Clemson*

Email to Bob Wells,

I wanted to echo Shannon’s thanks this morning and ask you to please convey a heartfelt THANK YOU to your folks who have been working so hard to take care of campus and our residents during the bad weather. I woke up this morning thinking how nice it was to be able to sleep in and work from the warmth and safety of my home. Then I immediately felt guilty, knowing that our facilities crews have been out in the cold doing manual labor around the clock for going on three days now. They are true heroes.

Props to you all for your leadership as well. Knowing you, I’m betting you’ve been out and about as much as your crews have.

Kudos and thanks to you all!

Verna Howell
*Associate Vice President for
Student Affairs*

Safety Incentive
Program Update

Safety Improvement Implemented resulting
in Department Behavioral Change

The Safety Incentive Program is off to a great start! The recent roll-out of the program inspired some much needed housekeeping in several mechanical rooms on campus.

Ken Rampey (Retired) and Mike Owens initiated a mechanical room housekeeping project for Central Area buildings. In order to mitigate tripping hazards in the area, they cleaned and painted the floors and concrete bases to building mechanical equipment. After Ken retired, Mike continued with the project by installing emergency lighting and exit signage. He has completed projects in Jordan, Daniel, Strode, Long, Sitrine, and Hunter.

Daniel Springs has been working on Rhodes and doing a fine job as well! You can see by the pictures what a difference it has made.

Because this has promoted a behavioral change as defined by the safety incentive program, Mike will be our first 10 point award winner, putting him very close to the first prize level. He will also receive points for making a safety improvement suggestion (2), reporting a hazardous condition (2), and for a hazardous condition being resolved (2).

If anyone in Facilities would like to view the Clemson University Atlas, it can be readily accessed by one’s own personal computer. If, however, you would like to look at a large, comprehensive version, typically you would have to send a copy to the plotter or visit the Civil Survey

office to view their Atlas “wall,” consisting of several full-sized plots that when pieced together display one giant print out of the Atlas. Facilities has mounted a large touchscreen in the Vault that users can take advantage of to view the Atlas using AutoCAD. For example,

if you’re working with a contractor and need to reference the Atlas in your discussion, you’re welcome to take them to the Vault and use the touchscreen’s tools to zoom in and out, rotate and pan, as well as measure points on the actual AutoCAD

FACILITIES GETS NEW TOUCH SCREEN ATLAS

Summer of 2014: The Busiest on Record

Staff in Facilities are accustomed to many projects going on over the summer while there are relatively few students on campus. This summer however, has been dubbed, “the busiest summer on record,” according to Michael Smith.

Some of the notable projects are:

Trustee House Upgrade—HVAC and restoring windows to original state.

Cooper Library Handrail Code Upgrade

Tillman Chapel Window Restoration

CU Fire Department Sprinkler System

Kinard emergency generator modification

ASB Common area renovation

New Bell Installation at Tillman Hall

Sikes Hall Granite Landing & Waterproof repairs

Motor Pool/Warehouse structural repairs

Martin Hall Terrazzo repair

Lee Hall I & II Fan Coil Replacement

Pearce Center HVAC Renovation

Hunter Hall HVAC Duct Modifications

Amphitheater Seating Renovation

McMillan Road & Epsilon Zeta Drive Asphalt Resurfacing

Expansion of the impound lot at Ravenel.

Fort Hill Asphalt Resurfacing

Parking Lot Resurfacing on Cherry Road

Martin Hall Sidewalk and Seatwall Repair

Rhodes Fan Coil Replacements

Riggs Fan Coil Replacements

President’s House Renovation

Lowry Hall Replacement Windows

Byrnes Hall Interior Improvements

Panda Express at Hendrix

Memorial Stadium West End Zone -Component III

Watt Innovation Center

Core Campus

Brackett Hall Re-Roof

Freeman Hall Expansion

Kinard Lab Pendulum Tower Renovation—Construction will occur on all levels of the breezeway between Martin Hall and Kinard Lab with the majority of work occurring on the lower level.

Please use caution and observe construction signage when traversing campus this summer.

PROFILES IN PEOPLE:
BEN QUARLES

licensed electrical contractor and general contractor as well.

Before coming to Clemson, Ben was self employed for over 20 years and decided on a career change after his children were grown.

Ben is a native of South Carolina and is originally from Ninety-Six. He has two sons, Justin (26) and Adam (24.)

In his spare time, he loves to fish for Largemouth Bass on Lake Greenwood.

Ben says that “It’s great to be a part of a growing future at Clemson University, helping students become the next leaders.”

Please welcome a new member to the Clemson Family, Mr. Ben Quarles who recently joined the High Voltage Crew as shop supervisor.

Ben has had many years of experience in the electrical field. He is a certified master electrician with a degree in Industrial Electronics and Engineering from Piedmont Technical College where, by the way, he also taught classes. He is a

Uniform Committee
Needs Volunteers!

As the uniform contract nears it’s end, Support Services is seeking volunteers to form a committee to discuss possible changes and/or updates to the current uniform policy. Not only is it important for Facilities staff to promote a professional image on campus, but it is equally as important to be easily identifiable and visible to the campus community.

With that in mind, input from each functional area is vital to address the specific needs of the individual. If you would like to represent your fellow employees by serving on this committee, please contact Cecelia at 656-0608 or email at cjackso@clemson.edu.

The first committee meeting will take place on Thursday, May 15th in the Facilities Large Conference Room.

DONORS NEEDED
FOR STAFF
RECOGNITION FUND

Summer get-togethers in Jervey Meadows may soon become a thing of the past for Facilities staff, if charitable donors don’t come forward to add to the Facilities Staff Recognition Fund. It has been more than ten years since the initial fund raising campaign and during that time, many of our staff have left the University.

Any contributions are gratefully accepted. You can make a one-time gift or deduct a recurring amount of as little as \$1 from your paycheck.

Remember, all donations are tax deductible! If you would like more information, please contact Cecelia Jackson at 656-0608 or cjackso@clemson.edu.
