

Tim Stowers – Central Energy Facilities Employee and his family happenings:

Tim Stowers will be retiring in October from the Army with 30 years of dedicated service — two years Active duty, 28 years National Guard:

- 2—tours in Iraq
- 1—tour in Egypt
- 1—tour in Korea
- 3—tours in Germany

Tim was stationed in Fort Knox Kentucky, Fort Carson Colorado, Fort Steward Georgia, and served at many other training sites.

Tim's daughter

ter Brittany Stowers graduated with her Master's Degree in Gerontology and Aging Studies, from the University of South Florida, currently working as director in her own facility.

Tim's daughter Jasmin Stowers graduated with her Bachelor's Degree in Nutritional Science from LSU, and now represents the USA in professional track and field, 100 High Hurdles.

Welcome Tommy Fallaw Director Landscape Services

Tommy Fallaw grew up in the midlands of South Carolina in the town of Batesburg-Leesville. He received a Clemson University Bachelor of Science Degree in Horticulture. Upon graduation Tommy worked six years in the private sector; four and a half years supervising crews that maintained the grounds for the South Carolina Budget and Control Board; as well as ten years for the University of South Carolina's Columbia Campus as Landscaping Services Manager.

Tommy is extremely happy to have the opportunity to return to Clemson where he got his start in the Horticulture field. Tommy, his wife Beth (also a Clemson graduate), and daughter Kirkley are very excited about moving to the Clemson area.

In his spare time Tommy enjoys hunting, fishing, golf and attending Clemson sporting events.

Tommy stated **"I feel really blessed to be here and look forward to the challenges that lie ahead."**

Did you know?

CU CAFLS (College of Agriculture, Forestry and Life Sciences) offers a summer program, *South Carolina Commissioner's School for Agriculture (SCCSA)*, for high school students interested in agricultural and natural resource majors or careers. For more information on the SCCSA program go to:

<http://www.clemson.edu/cafls/sccsa/>

Our Landscape Services' Arbor Crew assists the SCCSA program by conducting a Tree Care Workshop. During the workshop Arbor Crew members explain their job, discuss Urban Forestry, and have a tree climbing exercise.

FACILITATOR CAMPUS KUDOS

Email to Bob Wells

I wanted to send a quick update on the water damage to Holtzendorff Hall.

I am thrilled to report we are OPEN for classes! . . . This could not have happened without the hard work by everyone in facilities. From the asbestos testing crew who showed up early Monday morning to get things started, to the crew who removed the floor and ceiling, to the crew who put the floor back down yesterday, to the painters who took on the extra job of fixing the projection area – **facilities did an EXCELLENT job in both their response time and workmanship.**

A big thank you as well to Brad Poore for his hustle in coordinating the efforts, especially the painting – to Steve Brandon for coming in last weekend to assist in the cleanup – to our janitorial staff Alan and Walt for the extra cleanup work...I know I have missed someone, as there were many folks who pitched in and helped. **Please pass along our thanks and appreciation to anyone who had a hand in the Holtz effort this week.**

We are looking forward to welcoming a record number of General Engineering students – THANKS to all for helping us be ready!!

Beth

Email to Adrienne Gerus (re: West Campus Crew, Allen McLane Supervisor)

Ms. Gerus, you can tell Ray and the guys that highway 93 out by the Y barn looks fantastic! It always does, but after they finished manicuring everything this week, it's even better!

Email to Tom Jones

I wanted to take a moment and let you know how helpful Keith (Jones) has been over the past few days. I had an issue with our time clock not connecting to Clemson's wifi and he was able to get the right people involved to diagnose and correct the problem. Just in time for my weekly payroll deadline as well.

My crew owes their paychecks to Keith's efforts.

Email to Adrienne Gerus (re: Core Campus Crew, Mark Albertson Supervisor)

Hi Adrienne,

I hope you're the right person for this...

I am in Martin Hall overlooking the amphitheater and the North Green. Currently the amphitheater is in a "construction disarray". However, the North Green off-sets this quite nicely. The maintenance folks are doing a tremendous job of upkeep. We certainly appreciate their effort and hard work.

Thanks,
Frank Ballentine, SA

Martin Hall E108

(Continued from page 1)

Dear Mr. Paul,
During my past week at SCCSA I have learned so much. This could not be possible without you. You have taught me so much about urban tree care and what you and your staff do. It was very interesting getting to know you and your staff and see what you do for a living. Seeing you and your staff helped me make some big decisions about my future here at Clemson. Thank you so much for your time.

Dear Mr. Minerva and Staff,
Thank you so much for showing us how to use your equipment for urban tree care. The 2014 Commissioner's School of Agriculture, including myself enjoyed seeing how you manage such a beautiful campus. Thank you again for dedicating your time to us.

Hearing Protection

(By Cecelia Jackson)

During one of the recent Growl meetings in the Structural Shop, the topic for the day was Hearing Protection. Odean Bush shared some useful information about a free Sound Meter App that she found for her smart phone. Measuring sound levels while working on a job could be particularly handy for determining if hearing protection is necessary. Maintenance Stores stocks a variety of PPE to protect you from hearing loss. Please make use of it.

If you have information, an article, upcoming event or compliment you would like included in future Facilitator issues, please send the information to:
