

Tobacco Free Campus

Departmental Responsibility: Vice President for Student Affairs
Internal Guideline: 02.B.10.01

This information is provided in this location for the convenience of our employees.

Policy Statement

Clemson University is a tobacco-free institution. No smoking or other use of Tobacco Products is permitted on University Property. This policy is intended to discourage tobacco use and includes a ban on selling, free sampling or littering of any and all Tobacco Products on University Property.

Reason for Policy

The University is committed to promoting a healthy, safe and attractive environment for students, faculty, staff and visitors on University property. There are proven health and economic benefits of eliminating tobacco use for all members of the University community. Tobacco prevention and cessation programs are most effective when supplemented by strong tobacco-free policies and when they are incorporated into a broader community effort to reduce tobacco use. Therefore, the purpose of this policy is to promote a healthy environment, minimize the negative effects of passive smoke and tobacco use, maximize fire safety and promote wellness and good health habits on or within University.
