

Hazard Communication Plan

Brief Summary

University Facilities (UF)
Internal Guideline: 04.D.01.01
Effective Date: January 2007
Last Modified Date: June 2017
Approved by: Bob Wells, updated Todd Barnette

This document establishes official guideline for the proper handling of chemicals and other hazards.

Summary

Clemson University Facilities Management expects all of the employees working with chemicals and other hazards to know how to safely handle those materials. Training and documentation of that training is provided to all UP employees. See attached or go on-line to

<https://cufacilities.sites.clemson.edu/documents/envSafety/Hazard%20Communication%20Plan.pdf> for complete details.
